Capstone Project
Review

Reveiwer: Jorge Anzueto
Reviewee: Hitham (TAG Project)

Summary

Type of Review: Code Review / User Testing

Review:

Hitham showed me his implementation of the "Class List" to the TAG project. The "idea" itself works except for: having a unique Classlist for each unique semester.

I, the reviewer, found that when creating a new semester and adding a classlist.csv file, I was unable to upload such file.

Overall, Hitham would have to create the ability to have a unique Classlist for each unique semester and be able to upload a classlist.csv file.
